

CLASSROOM NEWSLETTER

OCTOBER
2026

Hello!

As October temperatures and the leaves begin to fall, our school year is filling up with loads of fun learning opportunities!

We are focusing on participating as a group member and equipping the children with the skills and confidence to accomplish hard tasks on their own.

Help our classroom collect "junk"

Our classroom will begin an ongoing art project and we need your "junk". These are loose items like bottle caps, empty thread spools, twist off yogurt tops etc. We will allow children to glue these 3D objects onto one collective canvas as a visual representation of working together. This is also one way to let children build fine motor skills and confidence for more challenging skills (like holding pencils and writing).

Reminders

Need a couple hours to get some errands done?

As Thanksgiving and Christmas come around, this is a reminder that Lunch Bunch every Monday - Thursday and Friday Enrichment are great opportunities to extend learning in a safe and familiar environment.

Thank You

Thank you everyone for your prayers and kind words as I finally had my wedding and finished the moving process! Pictures to come.

Want to help?

Children LOVE seeing a parent read a book or lead an activity. If you have a special recipe, or activity you want to lead, let me know!
